

My Experience Assignment

I have been playing badminton for more than 5 years now. I prefer to play singles over doubles. The reason why I joined this class is because I am having trouble with my back hand short serve. My servers are inconsistent; therefore, I cannot rely upon using it in a game. In this class I would like to learn about trick shots and improve my serving skills. All the things listed about strokes, and court strategy is something that I am willing and interested in learning. I am looking forward to learning from you coach!
